I-Pulse appoints Philippe Boisseau as a director

To our Board of Directors, Shareholders, Partners and Employees

We are pleased to announce the appointment of Philippe Boisseau as a member of the company's Board of Directors, effective immediately.

Philippe is a highly regarded and experienced corporate executive, with a deep understanding of the importance of leveraging new technologies in natural resource opportunities. He spent 20 years holding a broad range of management positions at Total SA, a French multinational and one of the world's seven "supermajor" oil companies.

As Head of Argentina and Middle Eastern operations at Total, Philippe accumulated vast experience in oil and gas both from operational and international perspectives. As head of Total's global Gas and Power division, he built his knowledge and experience of the worldwide energy sector. He created the Total Renewables Division, which has grown in importance and is now a key feature of Total's new group strategy. He also served as one of only six members of Total's policy-making Executive Committee.

Philippe also initiated and developed Total's digitalization of customer relationships – his first foray into the "tech" world.

He is a member of the advisory board of the Energy Intelligence Group and an advisor to the Carlyle Group.

He graduated from the leading French engineering school, Ecole Polytechnique, and also has a Master's degree in particle physics from Ecole Normale Supérieure.

We look forward to Philippe's strategic contributions and guidance.

Please join us in welcoming Philippe to I-Pulse!

All best wishes,

Robert Friedland
Co-founder and Chairman

Laurent Frescaline
